

Use the solar. Store the water.

Grid: desalination using otherwise curtailed solar. Sites: garden water budgets and overnight leak alerts.

Starting point for team review. Original concept and philosophy: Loucas Louka; roadmap development: Stefanos. Business review: Andreas Nikolaides and Cleopas Cleopa.

Codex assisted these drafts. The current Grid result uses weather and tariff scenarios; actual curtailment absorption remains unmeasured. Sources: AquaShift roadmap, pitch and retained results.
